Profile Summary

With 2.5 years of experience as a Frontend Developer, I have honed my skills in modern interface development using React JS, Next JS, Redux, JavaScript, HTML, and CSS. I've successfully delivered projects contributing to business growth and improved user experiences. Proficient in API integration and agile methodologies, I've crafted visually enticing front-end solutions. My skills include JIRA, Bitbucket, Redux Library, Github, GraphQL APIs, React.js, CSS, HTML, and more. I aim to use my skills to enhance user experiences and contribute to business success.

Education

B.Sc, 2021

Swarnachuda degree College,
Balasore

Work Experience

Sep 2022 - Present

Frontend Developer

INFINITY DATA TECHNOLOGIES PRIVATE LIMITED

- Developed user interface using React JS components to guarantee a responsive and user-friendly design for seamless interaction.
- Integrated Redux for efficient state management, ensuring consistent UI updates and improved application data handling.
- Employed Next JS for server-side rendering, resulting in optimized performance and enhanced user experience.
- Utilized TypeScript to improve code quality and maintainability.

Projects

4 Months

Global Style Trading

Led a cross-functional team in successfully completing the Global Style Trading E-commerce project within the 4-month timeline, using React JS, Next Js, and JavaScript resulting in a 10% increase in market share.

:-Implemented innovative strategies in the Global Style Trading project, utilizing frontend technologies such as React JS, JavaScript, Redux, and TypeScript, resulting in a 15% improvement in operational efficiency.

8 Months

Shure - E-commerce Platform

Developed "Shure" an E-commerce Platform for Microphones
Created a dynamic and responsive online shopping experience for Shure, an e-commerce platform focused on selling microphones. Built with React.js and Next.js for optimal performance and scalability, with Tailwind CSS for streamlined and consistent styling.

Integrated REST APIs to enable efficient data handling, real-time product updates, secure user authentication, and a smooth checkout process.

Designed for cross-device compatibility, ensuring an intuitive and responsive user interface that enhances the overall shopping experience.

Key Technologies: React.js, Next.js, Tailwind CSS, JavaScript, REST API

7 Months

Samyakk Web Application - E-commerce Platform

Developed "Samyakk" an E-commerce Platform for Clothing
Built the Samyakk Web Application, an e-commerce platform specializing in traditional and formal clothing, including Silk Sarees, Sherwanis, Kurtis, Tuxedo Suits, Kurtas, and Salwar Kameez, to provide a seamless online shopping experience.

Utilized React.js and Next.js to create a fast-loading, responsive interface, with TypeScript improving code reliability and maintainability. Implemented Tailwind CSS for efficient, modern styling and integrated Redux for state management to ensure consistent data flow and smooth user interactions.

Leveraged REST APIs to enable real-time data flow for inventory, user authentication, and transactions, supporting a secure and efficient shopping experience.

Key Technologies: React.js, Next.js, Tailwind CSS, JavaScript, TypeScript, REST API, Redux

6 Months

Marina Home Web Application - E-commerce Platform

Developed "Marina Home :- an E-commerce Platform for Furniture
We created Marina Home, a high-quality e-commerce platform dedicated to furniture sales, emphasizing a seamless and engaging online shopping experience.

It was built with React.js for a dynamic and responsive user interface, with TypeScript ensuring robust type safety across the application. Utilized Tailwind CSS for rapid and consistent styling, while integrating REST APIs and GraphQL for efficient data handling and real-time updates.

Implemented secure login and a smooth checkout process, designed to handle growth and improve user experience on all devices.

Key Technologies: React.js, Tailwind CSS, JavaScript, TypeScript, REST API, GraphQL
